

TRADOC Capabilities Manager - Electronic Warfare

This page was established to provide a cross-talk of timely & relevant information easily accessible to Soldiers anywhere in the world at any moment. It is designed to keep electronic warfare officers (EWOs) and Spectrum Managers (SMs) and their staffs aware of current and emerging solutions that enhance Training, Readiness and Mission Accomplishment at all levels. The goal is to develop and sustain a repository of experience and expertise that increase the Soldier & Leader knowledge base and enhances unit learning and performance as well as engaging with other communities regarding complimentary capabilities.
