Community Resource Guide

Fort Gordon is committed to building a strong and healthy community that supports Military Service Members, Families, DA Civilians, Retirees, and Contractors. The Fort Gordon Community Resource Guide is a reference tool for contacting agencies responsible for providing assistance to individuals and families. Off-post agencies are occasionally listed to provide a full range of resources available within the Fort Gordon area.

UNDERSTANDING INTERVENTIONS & PREVENTIONS

An intervention is an orchestrated attempt by one, or often, many people (usually family and friends) to get someone to seek professional help with an addiction or some kind of traumatic event or crisis. The term intervention is most often used when the traumatic event involves addiction to alcohol, drugs, suicidal ideations or other items.

A prevention is a program of activities directed at improving general well-being and often involving specific protection for selected purposes or diseases, such as immunization; while primary prevention is the avoidance of the onset of disease by behavior modification (e.g. limiting alcohol intake) or treatment (e.g. routine childhood immunization).
